## THE TWO CENTS PROPOSITION.

Representative Bingham, in his report to the House urging a reduction of letter postage to two cents, gives statistics going as far back as 1792, when the rate for carrying a letter was six cents for a distance of thirty miles and twenty-five cents for 450 miles. There is also a careful estimate, based on the history of the past, which sustains the theory of the report, that the stimulus of letter-writing, which would naturally be caused by a reduction, would greatly lessen the estimates of loss, which for the first year, not counting such increase of letters, would only reach \$8,000,000. The entire loss, the report assumes, could be offset by a fair allowance for carrying the mail matter of the Government. It is also estimated that should the reduction not take effect until January 1, 1894, as provided in the amended Anderson bill, the surplus of the first half of that financial year would balance the loss of the last half, and there would be ample time to exhaust or call in the printed supply of Government stamped three-cent envelopes. The surplus of the Postoffice Department in 1892 will be fully doubled, it is believed, in 1893. It is suggested that when the loss experienced by this reduction shall be fully made up, and when there shall again be a surplus, a reduction of the postage on drop letters should be made.

## THE DEPARTMENT OF AGRICULTURE.

Hon. Geo. B. Loring, Commissioner of Agriculture, has submitted his annual report to the President. The several divisions of his department are shown to be in excellent condition. The statistical division estimates the following as the yield of 1892: Corn, 1,635,000,000 bushels; wheat, 510,000,000 bushels; oats, 470,000,000 bushels; barley, 45,000,000 bushels; rye, 20,000,000 bushels; buckwheat, 12,000,000 bushels. The work of the chemical division has been devoted largely to the investigation of the sugar producing qualities of sorghum and other plants. The report of the veterinary division exhibits much valuable work and shows less disease among domestic animals, Texas fever excepted, than in many years. Interesting and valuable examinations into the fibres of wool and cotton have been made, and two sites, both in Colorado, have been selected for artesian wells, for the construction of which contracts have been awarded. In the forestry division, increased activity has been shown, a special agent having been appointed to collect information west of the Mississippi river. His report will soon be submitted.

The Bulletin is unable to decide what has brought about the present decline in silver. The production is supposed to be less than last year. But the weak elements on the surface are the light demand for China and the East Indies, the removal of the export duty on Mexican silver November 1st, and the recommendation of the President and Secretary of the Treasury to practically stop the further coinage of silver dollars. We think the last the most powerful of the three, so far as shaping the market now is concerned. Should these recommendations prevail, an important element of demand for fine silver would cease.

**A Corps of Surveyors Locating the** James R. Keene, of New York, has placed \$150,000 in the hands of a banker at Portland, Oregon, for investment in city property. Keene is sensible. Portland is destined to be the great city of the great Northwest, and the great Northwest is certain to be the best portion of Uncle Sam's territory. In twenty years from now Keene will wish he had invested a million instead of one hundred and fifty thousand dollars.

A. Hesse, Government Engineer from Germany, is visiting the coast to inspect the railroad system of the Central Pacific. He has made a trip through all of the shops, and was surprised to find many inventions and processes in use that are unknown in Germany, and much of the work better than any seen in the East.

The Atlanta Constitution expresses the opinion that when the people voted the Democratic ticket, the other day, they were clearing the decks for a row with monopolies and monopoly legislation. We shall see what we shall see.

The wine yield of Napa county, Cal., for this year has been ascertained to be 2,644,000 gallons. This is the product of sixty-one cellars, and only once previous has this amount been exceeded.

A solid piece of gold, weighing 152 ounces, was taken out of a placer claim at Indian creek, Yreka, near Happy Camp, in Del Norte county, Cal., a few days ago.

## SENSIBLE WORDS.

Governor Cleveland, of New York, seems to have fallen heir to Garfield's happy faculty of saying the right things at the proper time. Garfield's speeches during the Presidential campaign were remarkable. Cleveland follows the same style, and upon every occasion reported has acquitted himself splendidly. His remarks at the Manhattan Club banquet, quoted below, mark him as one of the coming men of America, and one likely to go from Albany to Washington: "I am quite certain the late demonstration did not spring from a pre-existing love for the party called to power; nor did the people place the affairs of the State in our hands to be by them forgotten. They voted for themselves and in their own interests. If we retain their confidence we must deserve it; and we may be sure they will call on us to give an account of our stewardship. We shall utterly fail to read aright the signs of the times if we are not fully convinced that parties are but instruments through which the people work their will, and when they become less or more the people desert or destroy them. The vanquished lately learned these things, and the voters will act wisely if they profit by the lesson. Let us not forget that intelligent, thinking, reading people will look to the party which they put in power to supply all their various needs and wants, and the party which keeps pace with the developments and progress of the times, which keeps in sight its landmarks and yet observes those things which are in advance, and which will continue true to the people as well as to its traditions, will be the dominant party of the future."

## The Eberhardt &amp; Aurora Strike.

The Aurora Leader has been shown a letter from Hamilton giving a full description of the new "find" in the Eberhardt & Aurora Tunnel at Hamilton. The lode discovered has a north and south strike and dips to the east. The lode is four feet thick, has regular hanging and foot walls and is well defined. The ore assays from \$65 to \$175 per ton in silver, and carries a very high percentage of copper. As the point at which it was struck is 1,000 feet below the surface, it establishes the fact beyond controversy that the lodes found on Treasure Hill extend downward to great depths and assures something like the old-time prosperity for White Pine District in the near future. At the time the lode was discovered Capt. Drake was absent in Montana on mining business, and did not intend to return until Spring, but the discovery was deemed so important that he was telegraphed to return, and is again at his post at Eberhardt. All who are acquainted with genial, honest Frank Drake will rejoice at his good fortune. At some future time we shall give our views in relation to White Pine, believing it to be one of the best mining districts in the State for money investments. Mr. Robinson, a gentleman from New York, largely interested in White Pine mining, expects to start his mill in a few days. He has developed some very fine ore in the old Truckee mine.

## The Aurora Mines.

The Aurora Herald says "as matters now look, it seems very likely that the mines of old Esmeralda District will soon make some smoke, if not considerable fire. The attention of capital is again directed hitherward, and we are informed that it is altogether probable that a strong company will take hold of some good property in the district. That is just exactly what is needed, for it is a well known fact that outside of the Del Monte there is not a hole in the camp over 430 feet. The Centennial and Cortez mines are down about that distance. Both have good ore in the bottom, and every indication of the pay continuing down. Now what we want is machinery to push these and other good prospects in the camp down to a much greater depth and explore the bowels of our hills. There is no doubt but there are good mines here, but it takes capital to develop a mine, and that we haven't got. The mines that are being worked—the Cortez and Centennial—are looking as well as any in the State for the development made. Let us have capital and old Esmeralda will step into the front rank, as of yore, as one of the bullion-producing districts of Nevada."

## Another Advance in Beer.

The San Francisco Beer Bottlers' Protective Association has adopted a resolution raising the price of bottled beer to \$1.25 per dozen. Members are requested to give a bond of \$50 each to observe that price. The Brewers' Protective Association has adopted a resolution that they will not supply beer to any beer-bottlers' Protective Association raising the price of bottled beer.

The Philadelphia Times thinks Mr. Cleveland should have had an elephant for his Thanksgiving turkey.

## WINNEMUCCA'S RAILROAD NORTH.

It appears that a party of surveyors, sent out by the Central Pacific Railroad Company, is now in Idaho, making the preliminary survey for a proposed railroad from Winnemucca North. The Boise Statesman has the following to say on the subject:

The surveying corps of the Central Pacific Railroad Company, to whom we referred in our last, have reached the mouth of Sucker creek. They are provided with a fine outfit, and report that they have made very rapid progress in running the line. Their instructions are to run directly from the mouth of Sucker creek to Boise City. From Boise a line will be run south-east toward the Wood River country. It is stated the merchants of San Francisco and the railroad officials have determined that the interests of both demand the construction of a branch which will secure to San Francisco the continued trade of Southern Idaho, the transfer of which to the East is threatened by the Oregon Short Line. Since the settlement of Idaho, it has purchased from San Francisco over one hundred million dollars worth of goods, and now, when there is every prospect of largely increased demands, San Francisco and the Central Pacific road have shaken off their lethargy, and mean business. Whether or not the construction of the line from Winnemucca to Boise City and beyond, will be realized, is a question for consideration; but, as yet, there seems no reason to doubt the good faith of the projectors. The engineers report the route, as far as surveyed, perfectly feasible.

## Sagebrush Loads.

The Tascara Times-Review says: "Some of the ordinary loads of sagebrush drawn by ten horses, will measure on the front wagon, eleven feet wide, seven feet high, and twenty feet in length, with a trail of the same or nearly the same capacity. This pile of fibres, using a Yankee expression, resembles a 'brush heap in a gale of wind,' and is sold for about thirteen cords. To a stranger to the forests of Nevada, this spectacle is novel in the extreme. A Down Easter would call it devilish coarse hay. The Nevada is glad to get a hundred or so cords piled up at a safe distance from his domicile. It burns readily—most too readily. One fireman can keep a cooking stove in blast, but two will find a busy time of it. This kind of fuel is very familiar to all in this vicinity, but we shall ask as a great act of condescension that we be permitted to publish this description of our aromatic caloric for the benefit of many in the great East who have never seen a sagebrush forest. It furnishes a most delicate seasoning for beefsteak on the coals. Sprinkled with buffalo chip pepper, it yields a sweet perfume, which far rivals and surpasses a restaurant fry pan. Royal sagebrush we give you a joyous welcome."

## CARSON'S TERROR.

[Austin Revellie.]

Like the sword of Damocles, suspended by a hair, so the terrible bugbear periodically suspended over Carson and worrying the nerves of her ambitious citizens is the threatened removal of the State Prison to Reno or some other more eligible point. Some years ago Governor Bradley went so far as to actually commence building a new State Prison near Reno, and the plotting, envious Renottes complacently point to the walls thereof, erected at that time, as evidence of possibilities and future probabilities in that matter. To raise a howl from Carson it is only necessary to mention even a remote possibility of the prison being removed to Reno, and to Reno above all other places in the world. They could stand it to have it removed to Candelaria, rejoice in seeing it established in Austin, but take it to Reno, bah! never!

And the artful, conspiring demon, Powning understands all this. He got the State Insane Asylum established at Reno, and now that he has got defeated for Congress, it is soothing to his lacerated cranium to stir up the Renottes and make them feel worse than he does, by deliberately advocating in his incendiary sheet the removal of the prison to Reno. And he goes on to prove the great advantages to the State of doing so; shows that Reno is by far the best place for it; shows how it can be made a profitable manufacturing concern, with ample water power from Truckee river, and how it can be made to put money into the State Treasury instead of taking \$50,000 a year out of it; shows how much more accessible it would be from all parts of the State, and recites numerous and several other advantages which must accrue from such removal. The Renottes can see nothing of the kind, and will not entertain or discuss even a proposition to that effect. It is like shaking a red blanket in the face of an old Spanish steer to even mention such a heresy. They will not even tolerate anybody that has such an idea in his head, and if they had their way would not allow anybody to be chosen to the Legislature or to belong to it in any way, even as a porter or page, who is not sound on the State Prison question.

The Reno people paid Professor Marsh \$1,000 to make a report on our prison tracks, and designate them as being the work of a sloth. This is the first step toward removing the prison to Reno.—Carson Appeal.

The Renottes have a Shakesperian club, with Tom Hymers at the head. In the same town gapes the State Insane Asylum. Let the Renottes take warning by the fate of Shakesperian spouters in California.—[Enterprise.]

As a tonic and nerve for debilitated women nothing surpasses Dr. Pierce's "Favorite Prescription." By druggists.

## TOWN AND COUNTY.

## BREVITIES

Two prisoners in jail.  
There are 139 patients in the Asylum.  
S. M. Jamison went below last night.  
The fire plugs are deserving of a holiday present.

Mrs. Harney will give up her present store this month.  
Bob Hoy has sold out his interest in the Capital saloon.

Surveyor General Davis will be up tomorrow morning.

Supt. I. L. Requa was a passenger for the Bay last night.

The present Commissioners have another meeting Saturday.

Wm. Madden, Sr., one of our earliest inhabitants, is in from Bodie.

James Mundy, an insane patient, was brought in from Eureka last night.

Jos. Mandel and M. Schwartz were down from the Comstock yesterday.

Bert Lindley, of Sacramento, is in Reno on a visit to his cousin, A. Lindley.

It is said that Nick Hammersmith will reopen in the Wine House barber shop.

H. J. Thyne and wife and Mrs. H. W. Higgins have gone to San Francisco on a visit.

Gen. R. M. Clarke returned from the Bay City yesterday morning, in good health.

Louisa Watson was yesterday granted a divorce from S. S. Watson. Judge King untied the knot.

A charge of vagrancy has been lodged against that old lady who has been around begging for a month past.

Those who delight in hearing fine music will be able to gratify their taste by attending the musicale at the Seminary this evening.

Mr. Alt's dancing school was crowded last Wednesday night and will be to-morrow. She teaches the latest dances. At Reform Club Hall.

Hon. Pete Smith, of Virginia, was in Carson on Sunday last canvassing among his friends for the office of Superintendent of the Orphans Home.

Osborn & Shoemaker have received a fine lot of Kalo-Meda wooden ware, embracing stands, baskets, holders, etc. It is very handsome for ornament, as well as useful for almost all purposes. Take a look at it, and make the Journal office a Christmas present of the nicest pieces.

The ladies of the Woman's Christian Temperance Union desire to render their sincere thanks to the Literary Society for thirty dollars received as the proceeds of the entertainment given for their benefit. The people generally, who have so kindly assisted the ladies in their efforts will also, one and all, accept their grateful acknowledgments.

## Nothing in It.

The Carson Index says "we learn that it was reported in New York at the time Mr. Mackay last sailed for Europe, that on his return he will take an interest in the N. & O. Railroad and push it on to the great timber belt north of Reno. This looks like business." The gentlemen in Reno interested in the N. & O. say there is not the slightest prospect of Mr. Mackay having anything to do with the road.

## A Successful Road Agent.

On Wednesday last Sam Fannon's express wagon running between Candahria and Hamilton was stopped by a masked road agent and Wells, Fargo & Co.'s treasure box captured. The amount secured by the robber has not been made known. There is little likelihood that the highwayman will be caught.

## Bad Shots.

Tom Hynes and a fellow sportsman saw a woodpecker on the Methodist Church belfry yesterday morning and determined to kill it. They got out their guns, went to the spot, took good aim, pulled the triggers, guns went off and scared everybody in the neighborhood, bird flew away, church not damaged.

## Resigned.

F. Everts, who has been Superintendent of the Eureka & Palisade Railroad since its construction, has sent in his resignation, to take effect Jan. 1. The company, however, prevailed on him to retain the position until the 1st of February, which he will do. B. Gilman, of Virginia City, will be his successor.

## Ostriches.

The twenty-two ostriches for California were on the west-bound train night before last. Those who had the good fortune to see the strange creatures say the sight was a pretty one. They were about four feet in height.

## The \$800 Case.

The Commissioners are being censured for the purchase of the Smith property. The motive which actuated them was to have the Plaza complete, so that the entire space in front of the Court House yard could be enclosed and improved whenever such a step should be deemed necessary. Smith has owned the ground for thirteen years and has repeatedly refused to sell it to private individuals because it has always been the talk that some day or other the county ought to have it. He paid \$1,000 for the property. The Journal does not object to the county owning the ground, if there is any desire or intention of making the so-called Plaza an ornament to the town; but it doubts the propriety of the Commissioners, even though they have the legal right, buying any real estate, without first obtaining an expression of opinion from the taxpayers by petition or otherwise. If the Board has the right to purchase \$800 worth of real estate, it can pay out \$8,000 or \$80,000 for the same purpose. The people have no disposition to allow this Board such extraordinary and dangerous power. Let us be right before we go ahead. Auditor Williams should give the taxpayers a chance to be heard on this subject.

## Accident at Franktown.

On Friday last Mr. James Twaddle was at work in the mountains west of Franktown, engaged in repairing and enlarging the Franktown ditch. He had occasion to do some blasting and put in three drill holes and charges of powder. One of them did not explode and Mr. Twaddle went to the spot to ascertain the cause. Just at that moment the blast went off and he received the effects in his face. His right eye was destroyed and the other temporarily if not permanently blinded. He was alone, and although suffering very much he felt his way along the ditch embankment for about two miles toward Franktown. After sundown his non arrival was noticed and a party went in search of him. He was found and brought home where he now is. He is suffering very greatly and is much prostrated. He is about 55 years of age and a brother of the late well known John Twaddle, a prominent citizen and rancher of Franktown. Mr. Twaddle, it is thought, will probably recover from his serious mishap, but the restoration of his eyesight is problematical. We hope to hear of his speedy improvement. The Journal obtains these particulars from the Carson Index.

## Yesterday's Fire.

Reno was aroused by the ringing of fire-bell yesterday morning about 3 o'clock. The cause was the burning of Nadon's barn, in the alley in the rear of the Western Hotel. The engine, steamer and fire plugs were brought into service, and the firemen succeeded in confining the fire to the immediate vicinity, the only other damage being the destruction of a small barn adjoining, and the partial burning of two small houses on either side of the barns. The total loss was not \$500. Nadon had some insurance in the Sun Co. The fire was undoubtedly the work of an incendiary. A high wind was blowing at the time of the fire, and many expected a general conflagration in that section of town, but it was cleverly and luckily prevented.

## Indian Summer.

What we call "Indian Summer" is known in Germany as the "Old Men's Summer"; "St. Martin's Summer" in France; in other places, the "After Heat" and "Red Leaf." The Indians call it their "Fall Summer." At the first steady cold the early colonist thought Winter had come, but the Indians replied: "No, there will be Summer yet." When this warm season appeared, Carver and Standish said to each other: "Lo, here is our Indian Summer!" The Boston Transcript quotes Longfellow's description of it in "Evangeline."

"Then followed that beautiful season Called by the pious Acadian peasants the Summer of all saints: Filled was the air with a dreamy and magical light, and the landscape Lay as if new-created in all the freshness of childhood."

## Bean Lovers.

The rise in the price of beef causes the Austin Reveille to remark that "people who cannot afford to feast on fresh meat will have to eat more bacon, or fish, or fill in on beans. This last proposition will not worry an old Forty-niner or a Reese River Pioneer in the least. They are fire-proof so far as beans are concerned, and it will merely seem like returning to first principles, going back to old-time grub to return to their regular beans."

## Republican Churchill.

Churchill county gave nearly all of the Republican candidates a majority at the State election. Adams carried the county by 8, Richards 58 and Ernst 9. Powning had 34, Laughton and Burke tied, Leonard had 6, Hallock 4, Bicknell 4, Tufty 12, Davenport 4, Young 5, Harlow 8.

At Morris Ash's little sideboard there is everything that is good in the shape of wines, liquors and cigars.

## PRIZE BOOKS FOR SUBSCRIBERS.

The Weekly Journal's Clubbing Arrangement with the Cincinnati Commercial.

Having made arrangements to club the WEEKLY JOURNAL with the Cincinnati Weekly Commercial, we announce that we will furnish the WEEKLY JOURNAL and the Cincinnati Weekly Commercial, a large 8-page, 56-column family newspaper, printed from large, clear new type, and furnishes more reading matter for the money than any other newspaper in the county, the issue of each week containing over twenty-two square feet of printed matter, and is not surpassed for news, business reports, literary and select reading, one year for \$3 50, and will give as a free prize to each yearly subscriber under this clubbing arrangement any one book he may select from the following famous works—postage paid and free of all cost—the books being unabridged, beautifully printed on good paper in paper covers: Tennyson's Poems; The Arabian Nights; The Narrative of the Jeannette Arctic Expedition, by Lieut. Danenhower; The Mill on the Floss, by George Eliot; Wood's Natural History for Boys, (300 illustrations); East Lynne, by Mrs. Henry Wood; Vennor's Almanac for 1883; The Swiss Family Robinson; A Treatise on the Horse and His Diseases, by Dr. B. J. Kendall; The Woman in White, by Wilkie Collins; History of the Kingdom of Ireland; Vagabond, by Sir Walter Scott; A Brave Lady, by Miss Mulock; The Bible Dictionary; Lady Audley's Secret, by Miss Braddon.

It will be noticed that our selection of prizes covers an extraordinary range and variety of the brightest and best books. Free specimen copies of the Cincinnati Weekly Commercial may be obtained by addressing M. Halstead & Co., Proprietors Commercial, Cincinnati, Ohio, and free specimen copies of the JOURNAL can be obtained by addressing O. C. Powning, Proprietor JOURNAL, Reno, Nevada.

Send postal card asking for specimen copies.

## Journal's Holiday Book.

The JOURNAL's illustrated Annual for 1883 will be distributed to subscribers about the 20th. Every subscriber of the Daily and Weekly JOURNAL will certainly appreciate it. It will have fifty illustrations on wood, chiefly by Darley, Moran, Schell, Whitney, Woodward and other celebrated American artists. The cover is an exquisite piece of the Aldine's best. The contents of the Annual are as instructive as interesting. The almanac portion is complete in every way. The book is the best ever yet gotten out for the purpose for which it is intended.

## Fine Job Work.

The JOURNAL job office has just received a large and fine stock of paper, cards, inks, etc., for job printing and is prepared to take orders for every description of work in the printing line. Only skilled workmen are employed in the job room and no inferior work is allowed to leave the office. Compensating prices are charged for every job and satisfaction guaranteed. Call and examine our specimens and leave your orders.

Surveyor General Hatch will remain at Carson until the close of his term, about three weeks.

## Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

President Jarrett, of the Iron and Steel Workers' Union, says the steel men refuse to meet employees to fix next year's wages, and that they propose to suspend operations at the opening of the year till Congress acts on the report of the Tariff Commission.

YOUNG MEN.

WHO may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$5.
